Adding Across 10

BrightPage

Instructions

1. Use ten as a stepping stone.
2. Split the second number into two parts.
3. Fill the first ten-frame, then add the rest to the second ten-frame.

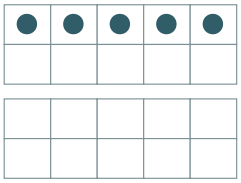

Example

8 + 5

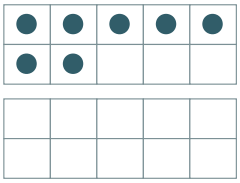

1. Split 5 into 2 and 3.
2. 8 + 2 = 10. That fills the ten-frame.
3. Put the 3 left over in the next ten-frame.
4. 10 + 3 = 13.
