Telling Time to the Minute

BrightPage

Instructions

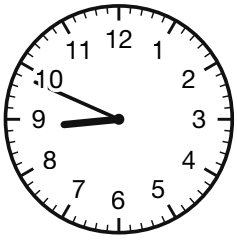

1. Find the short hand: the number it has just passed is the hour.
2. Find the long hand and count by fives from the top to the last number it has passed.
3. Count on by ones for each small mark after that.
4. Write the time as the hour, a colon, then two digits for the minutes.

Example

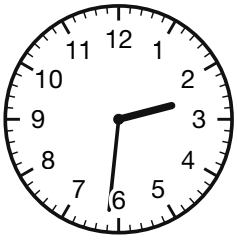

12 : 26
